ACKNOWLEDGEMENT

This study is based upon information gathered and analysis performed primarily by the USACDC Personnel and Administrative Services Agency.

This study is approved by Headquarters, Combat Service Support Group, Combat Developments Command. Information contained in it conforms to the Department of the Army approved doctrine study, "The Administrative Support, Theater Army, 1965-1970 (TASTA-70)."

This study is provided for use as a reference document and is a basis for further development of doctrinal literature (field manuals), tables of organization and equipment, basis of issue, and materiel requirements documents.

Comments concerning the study are invited and should be sent direct to the US Army Combat Developments Command, Personnel and Administrative Services Agency, Fort Benjamin Harrison, Indiana 46249.

MTEL/TOE included herein are representative of the types of organizations required to support TASTA-70 concepts and doctrine. The detailed organizations depicted should be considered as representative but not final inasmuch as MTEL and TOE are subject to change or refinement during normal staffing as draft plan TOE.

ABSTRACT

The Personnel Command and Adjutant General Operations, 1970 (ACN 3132) is the Personnel and Administrative Services Agency's derivative study for CSSG Study-63-6, The Administrative Support Theater Army (TASTA-70), and is composed of three volumes.

Volume I, Adjutant General Operations, 1970, is a comparison of Adjutant General current and proposed functional systems.

Volume II, Adjutant General Functional Support to Field Army Support Command, provides proposed manning tables and equipment lists for Adjutant General direct support functions.

Volume III, Personnel Command, provides proposed manning tables and equipment lists for Adjutant General and related personnel/administrative general support functions which includes prisoner of war/civilian internee, graves registration, finance, and chaplain activities.

This volume is the second of the three volumes and provides detailed organization and doctrine for Adjutant General direct support functions.

This volume does not include headquarters FASCOM because of duplication. Refer CSSG Study, Headquarters Units, TASTA-70, dated December 1965.

SUMMARY

1. General.

a. Adjutant General Operations during the TASTA-70 time frame are performed by general and direct support activities.

(1) The general support activities are in the Personnel Command, Theater Army Support Command (TASCOM), and provide support to the direct support activities.

(2) The direct support activities are in the Area Support Command (ASCOM) of the TASCOM, and the Army/Corps Support Brigades of the Field Army Support Command (FASCOM), and provide support to organizations and individuals assigned.

b. The purpose of this volume is to present the manning tables and equipment lists of the direct support Adjutant General operations in the Field Army. Adjutant General direct support operations in the ASCOM have been included in USACDCCSSG Study 63-6-2, The Area Support Command, and have not been included in this study to avoid duplication. Initial manuscript material pertaining to organizations and operations have been incorporated into FM 12-2-1 TEST (to be published).

2. Functions. The Adjutant General functions are: personnel, (to include replacements), administration, and morale services (band, postal, and special services).

3. Organization. Direct support personnel, administrative, and morale services are provided by the Personnel and Administration Battalion assigned to each Army/Corps Support Brigade. A type Adjutant General direct support organization was structured for the FASCOM and represents the minimum Adjutant General services necessary to provide direct

personnel, administrative, and morale services support to a 12-division force in accordance with the basic TASTA-70 study (63-6). A comparison of Personnel Service Companies in CO-STAR II and TASTA-70 in the FASCOM is presented below to illustrate the reduction of support to supported ratio.

	CO-STAR II	TASTA-70
a. Total strength of units supported	95,000	240,000
b. Number of Personnel Service Companies	8	4
c. Total strength of Pers Svc Companies	2814	1320
d. Ratio of support to supported	1:34	1:182

The difference in total strength in the paragraph above results from the fact that in CO-STAR the personnel service companies only support combat service support units, while in TASTA-70 the personnel service companies support all combat, combat support, and combat service support units. The total strength of CO-STAR personnel service companies does not include the strength of the administrative machine branch in order to compile a more accurate comparison.

4. Conclusions.

a. That the Adjutant General direct support service units in this study are the minimum required for a theater of operations (12-division force) under the TASTA-70 concept.

b. Training, MOS, and equipment changes required are provided in Volume I, Adjutant General Operations, 1970.

PERSONNEL AND ADMINISTRATION BATTALION

SECTION I

GENERAL

1. Title. Personnel and Administration Battalion.

2. Organization. This unit is a flexible organization normally composed of a Headquarters and Headquarters Detachment, Administrative Service Detachment, Band, Personnel Service Company and a variable number of Army Post Offices, Replacement Regulating Detachments, Special Service Detachments, and Finance Direct Support Companies. (See Figure A-I-1).

3. Mission: To provide direct personnel, administrative, financial, and morale services support.

4. Capabilities.

a. This battalion provides the following at full (level 1) strength:

(1) Direct personnel, administrative, financial, and morale (hand, postal, and special services) services support to FASCOM Army/Corps Support Brigade and nondivisional units.

(2) Liaison (personnel, administrative, morale, as appropriate) with headquarters supported.

b. This unit is dependent upon other support activities for supplemental motor or air transportation, supplemental signal communications, signal maintenance of organic signal equipment, medical services, and supplemental vehicle maintenance of organic vehicles.

c. The battalion serves as a carrier unit for direct support finance support units as required by the mission of the command to which assigned.

5. Assignment. Army/Corps Support Brigade, FASCOM.

6. Basis of Allocation. One per Army/Corps Support Brigade of the FASCOM when required.

PERSONNEL AND ADMINISTRATION BATTALION, FASCOM

* The organization with the number of subordinate units shown is a Type Personnel and Administration Battalion only.

** Number of units are in direct proportion to the number of troops serviced.

ANNEX A

APPENDIX III

PERSONNEL SERVICE COMPANY

SECTION I - GENERAL

1. Title. Personnel Service Company.

2. Organization. The personnel service companies consist of a company headquarters and three functional divisions: personnel management division, personnel actions division, and records division. (See Figure A-III-1).

3. Mission. To act as custodian of and maintain the command individual military personnel records, and to accomplish the personnel actions and services which are attendant upon this responsibility. This service includes that which satisfies the personnel requirements of the individual as well as that which the commanders being supported need to permit them to discharge their personnel management responsibilities.

4. Capabilities.

a. Personnel service companies are of eight types and are designed to support troop strengths as follows:

- (1) Type A - 5,000 (2,500 - 7,499)
- (2) Type B - 10,000 (7,500 - 12,499)
- (3) Type C - 15,000 (12,500 - 17,499)
- (4) Type D - 20,000 (17,500 - 22,499)
- (5) Type E - 25,000 (22,500 - 27,499)
- (6) Type F - 30,000 (27,500 - 32,499)
- (7) Type G - 35,000 (32,500 - 37,499)

(8) Type H - 60,000 (57,500 - 62,499)

- b. This MFL is not adaptable to a Type B organization.
- c. These units are dependent upon other units for chaplain and medical support.
- d. Individuals of these units can engage in effective, coordinated defense of the unit's area or installation.
- e. These units are not adaptable to a reduced strength organization.

5. Assignment. The personnel service company is assigned to and operates under the command and control of the Personnel and Administration Battalion, FASCOM or ASCOM.

6. Basis of Allocation.

- a. As required, based upon the troop support capabilities indicated in paragraph 4 above.
- b. Normally, one Type H support brigade in FASCOM.
- c. One per each mission command and ASCOM, and one for all other units in TASCAM. Total, normally, seven in TASCAM.

ANNEX A

APPENDIX IV

ADMINISTRATIVE SERVICE DETACHMENT

SECTION I - GENERAL

1. Title. Administrative Service Detachment.

2. Organization. The detachment consists of two sections and a headquarters element as shown in Figure A-IV-1.

3. Mission. To provide centralized administrative services support consisting of reproduction and unclassified records library services for all units serviced by the Personnel and Administration Battalion in the Army/Corps Support Brigade of the FASCOM.

4. Capabilities.

a. Install, operate, and maintain reproduction facility to provide volume reproduction services to units serviced by the Personnel and Administration Battalion when the page quantity required by a serviced unit exceeds the capability of reproduction equipment or personnel within the requesting unit. Reproduction services include duplicating, collating, binding, packaging, and mailing to requesting units for further distribution.

b. Install, operate, and maintain central records library activity to provide a centralized single source of publications and file record storage and retrieval for use by major commands and units serviced by the Personnel and Administration Battalion. All applicable Department of Defense, Department of the Army, Theater Army, and other major headquarters unclassified documents distributed to units are maintained in the library. File services included are correspondence, messages, and all other manner

of written, typed, printed, or drawn communications (Figure A-IV-2).

c. Coordinate with headquarters, commands, and units of all serviced elements concerning reproduction and library services.

d. Dependent on automatic data processing equipment of TOE 29-540, or TOE 54-22 for computer random access magnetic storage facility.

e. Dependent on another unit for messing and logistical support.

f. These units are not adaptable to a reduced strength organization.

g. Individuals of this organization can engage in effective coordinated defense of the unit's area or installation.

5. Assignment. Normally assigned to Personnel and Administration Battalion when established and supports an Army/Corps Support Brigade in the FASCOM.

6. Basis of Allocation. One per Personnel and Administration Battalion (TOE 12-66) or one per Army/Corps Support Brigade in the FASCOM.

PERSONNEL JUSTIFICATION

Supporting Data for MTEL.

a. Administrative Services Detachment Headquarters.

(1) Personnel assigned to the detachment headquarters are required to perform unit headquarters, maintenance, supply, and administration functions. The detachment depends on other units for mess support.

(2) Detailed justification by line number on the manning tables is as follows:

(a) Line 01 - Supply Sergeant, 76K40, E-6, NC. Maintains unit supply records of organic equipment. Requisitions and issues individual field equipment and expendable supplies required in the Central Records Library Section and Reproduction Services Section. Requisitions replacement items and component parts for organic equipment. Supervises other personnel in the detachment headquarters element.

(b) Line 02 - Motor Sergeant, 63B40, E-5. Maintains all vehicles assigned to the detachment. Performs 2d echelon maintenance on organic vehicles and trailers. Keeps records of maintenance, dispatches vehicles and supervises the mechanics helper.

(c) Line 03 - Electronic Devices Repairman, 34C20, E-5. Maintains and repairs display devices, automatic tape/card typewriters, microfilm equipment, duplicating and photocopying machines, scanner, and buffer. Also a light truck driver.

(d) Line 04 - First Cook, 94B20, E-5. Authorized by paragraph 4e(1)(c), AR 310-32.

(e) Line 05 - Detachment Clerk, 71H20, E-4. Authorized by paragraph 8c(7), AR 310-32. Maintains unit headquarters files, types correspondence as required, is the unit mail clerk, and is also a light truck driver.

(f) Line 06 - Supply Clerk, 76K20, E-4. Assists unit supply sergeant in maintaining unit supply records and requisitions of supply items. Also is unit armorer and light truck driver.

(g) Line 07 - Senior Switchboard Operator, 72C20, E-4 (2). Receives and routes traffic for library service by telephone, display units, and automatic tape/card typewriter, and normal unit communications requirements for a two-shift, 24-hour operation.

(h) Line 08 - Power Plant Mechanic/Operator, 52B30, E-4. Maintains and repairs the two diesel powered generators under the supervision of the unit supply sergeant; is also a light truck driver.

(i) Line 09 - Mechanics Helper, 63A10, E-3. Assists motor sergeant in maintaining and repairing unit vehicles; is also a heavy truck driver.

b. Reproduction Services Section.

(1) One officer and 9 enlisted personnel are the minimum number required to adequately provide the reproduction services outlined in the concept of operations. Several assumptions were made in developing this type organization. First, the Reproduction Services Section is operational on a 24-hour basis. Second, large volume reproduction services are required to adequately service Field Army and Corps units. Third, a rapid means to receive final copy requests for reproduction and to distribute reproduced documents is required.

(2) Detailed justification by line numbers on the manning tables is as follows:

(a) Line 01 - Section Chief, Capt, AG, 2110. Performs as officer in charge of the section. Supervises large volume reproduction services for serviced units, timely delivery of product to requesting agency, and maintenance of necessary records.

(b) Line 02 - Section Supervisor, 71L40, E-7, NC. Performs as the Senior Non-Commissioned Officer of the section. Assists Section Chief, supervises workload distribution, and establishes work requirements of assigned enlisted personnel.

(c) Line 03 - Senior Reproduction Machine Operator, E-5 (2) and Line 04 - Reproduction Machine Operator, 71L20, E-4 (2). Prepare paper masters from requests received on the automatic tape/card typewriter and hard copy documents, operate offset duplicating machine, maintain records of work performed, clean and maintain machines (first echelon maintenance), and maintain sufficient working materials in work area. Sufficient personnel are assigned for two 12-hour shift operations.

(d) Line 05 - Processing Specialist, 71L20, E-5 (2), and Line 06 - General Clerk, 71A10, E-3 (2). Perform the collating, stapling or binding, packaging, addressing labels, and dispatching of the reproduced materials; maintain stock of expendable supplies for the section; and operate the automatic tape/card typewriter. The general clerks are also heavy truck drivers.

c. Central Records Library Section.

(1) Two officers, one warrant officer, and 20 enlisted personnel are the minimum number required to adequately provide library services. Two assumptions were made in developing the organization. First, the central records library section is required to be fully operational on a 24-hour basis. Second, automatic equipment as outlined in the concept of operations and shown on the equipment list will be available for handling the majority of input and retrieval actions.

(2) Detailed justification by branch is as follows:

(a) Section Headquarters - Line 01, 02, 03, 04 and 15.

The Section Chief, Maj, AG, 2100, is responsible for and supervises the central records library section. He is also the administrative service detachment commander. Operations of the library include receipt of all record documents for processing and transmission to the computer random access storage facility; providing document descriptor service to serviced units; providing files search service and hard copy print-out or transmission to serviced units; and maintaining microfilm library and retrieval services. He is assisted by a Capt, AG, 2110. The one warrant officer is primarily concerned with establishing and monitoring reports and forms management and records retention policies and procedures at all levels in the army or corps area serviced, to include the records maintained in the computer random access storage. He also maintains liaison with the Theater Army and other records libraries. The library section supervisor, 71L50, E-8, NC, is the principal enlisted assistant in the section. He

supervises workload distribution, establishes work requirements of enlisted personnel, and is also the detachment first sergeant. The clerk typist performs duties as required.

(b) Input and Storage Branch - Line 05, 07, 09, 11, 13.

One E-7 is required to supervise the branch. He is assisted by the chief librarian who is also responsible for the indexing, description techniques, and publication of appropriate procedural guidance to all serviced units. The requirement for six document recording specialists was determined by an estimate of the workload as follows:

1 15,000 document pages per day are generated by major command headquarters elements and units within the army or corps area serviced, for input to the random access magnetic storage facility.

2 There is a five percent reject rate from the optical scanner which must be processed manually to add or modify descriptor detail for acceptance in the system.

3 Each document recording specialist can process 12 documents per hour on a 12-hour shift. This totals 864 documents, which accommodates the anticipated reject rate. Additionally, a small volume of documents is maintained in the microfilm facility. Two document recording specialists are also responsible for proper input to the microfilm system.

(c) Retrieval and Display Branch - Line 06, 08, 10, 12, 14, and 15. One E-7 and one #-6 are required to supervise the information retrieval function as outlined in the concept of operations. The requirement for seven file retrieval and display specialists was determined by an estimate of the workload. Requests for information or assistance

are received at this branch by automatic tape/card typewriter, video display units, or basic (telephone) communications. An estimated 2,000 requests for information from magnetic storage will be made by staff sections using the video display device. One quarter of these requests (500) will be rerouted through the retrieval and display branch for assistance. Additionally, 410 requests are received at the retrieval and display branch from company size units using the automatic tape/card typewriters.

ANNEX A
APPENDIX V
ARMY POST OFFICE

SECTION I

GENERAL

1. Title. Army Post Office.

2. Organization. The Army Post Office is composed of a headquarters team, mail processing teams, and postal finance teams.

(See Figure A-V-1).

3. Mission. To provide direct support postal services (mail distribution and dispatch, and postal finance) to individuals and units.

4. Capabilities.

a. Each type of Army postal unit can normally serve a population area of 15,000 personnel.

b. The unit receives mail from mail terminals or regulating units (operated by the Postal Company General Support, Personnel Command) and prepares mail for unit collection, and it receives mail from units served and prepares such mail for collection by mail terminals or regulating units.

c. The unit provides postal finance service to individuals.

d. These units are not adaptable to a reduced strength organization.

e. The capabilities of a Type B organization are the same as those of a full strength organization.

(1) The Type B column adapts this TOR to lessened requirements for United States military personnel. Vacancies existing in the Type B column indicate (bulk mail handling only) the types of

positions which can be filled by non-United States personnel. The number of non-United States personnel must be determined by the major commander to which the unit is assigned and will depend upon capacity of available personnel to produce, number of shifts, and other local conditions.

(2) Interpreters and translators required when organized under Type B column will be provided from appropriate teams available to the Theater Commander.

(3) Authorization of United States military personnel shown in the Type B column may be modified by troop basis proponents as required by local area conditions of employment in order to enable the unit to effectively accomplish its mission WAB DA.

f. These units are not self-sufficient and are attached to other units for administration, mess, supply, and motor maintenance.

g. Arms and individual equipment are authorized for United States military personnel only. When non-United States personnel are used, mail guards will be furnished by the unit to which the postal units are attached.

h. Individuals of the unit can engage in effective coordinated defense of the unit's area or installation.

5. Assignment. Normally assigned to Personnel and Administration Battalion, Army/Corps Support Brigade, FASCOM; Area Support Group, ASCOM.

6. Basis of Allocation. Allocated on the basis of strength of forces to be served; reference 4a above.

7. Personnel Justification.

a. General. Personnel authorizations to include grade and position are provided in accordance with AR 310-32, except for postal clerk positions. Postal clerk positions authorized in this MTEL are governed by the following criteria:

(1) Standards of position and grade authorization.

Position titles and grade authorizations for postal personnel are provided in accordance with proposed change to the Postal MOS contained in AGA Postal Operation, TASTA-70.

(2) Manpower authorization criteria. Personnel grade E5 and below are authorized based on area population and in accordance with the following criteria:

(a) One postal clerk for each 1000 persons served for elements involved in mail processing activities.

(b) One window clerk for each 750 to 3000 persons served for elements involved in postal finance activities. Personnel of this category will not process mail.

b. Para 01, Team AA, Army Post Office, Headquarters. The personnel authorized for this team are required for command and control of one mail processing team, and from three to eight postal finance teams. Their specific duties are:

(1) Line 01, Commanding Officer, AGC, MOS 00.7, Cpt. Commands the Army Post Office and acts as Postal Officer of Headquarters, Area Support Group. Duties include control of from 15 to 36 subordinates, supervision of mail dispatch and delivering operations, and supervision

of postal finance activities. Also acts as the Custodian of Postal Effects.

(2) Line 02, Postal NCO, MOS 71F50, Grade E8. As the senior noncommissioned officer in the Army Post Office, assists the postal officer in all phases of supervisory duties. Must be knowledgeable in all areas of postal operation. Grade E8 is authorized in accordance with standard of grade authorization as proposed in AGA Postal Operation, TASTA-70.

(3) Line 03, Clerk-Typist, MOS 71B30, Grade E4.
Authorized by para 8c(8) AR 310-32.

c. Para 02, Line 01, Postal Supervisor, MOS 71F40, Grade E7. Supervises 15 or more subordinates in the postal operations of the mail processing team.

(1) Line 02, Assistant Postal Supervisor, MOS 71F40, Grade E6. Acts as chief of a separate team, performs duties as Chief of Control Section, distribution section, and incoming and outgoing activities, and is responsible for supervising the performance of six or more subordinates engaged in mail processing.

(2) Line 03, Assistant Postal Supervisor, MOS 71H40, Grade E5. Acts as assistant chief of a separate team. Supervises the processing of registered, insured, and certified mail. Supervises the operation of a branch distribution point if one is established. If mail transportation schedule requires a twenty-four hour, two-shift operation, he becomes a shift leader.

(3) Line 04 and 05, Postal Clerk, MOS 71F20, Grade E4, and assistant postal clerk, MOS 70A10, Grade E3. Based on criteria of one direct support postal clerk for each 1000 to 1200 persons served, fifteen direct postal clerks are required to meet the 15,000 population served in the Area Support Group, with the additional requirement of serving 3,000 troops assigned to the group.

d. Para 03 and 04, Line 01, Postal Finance Teams, OA and GB. Postal finance teams operate as component elements of Army Post Offices. Based on staffing criteria of one window clerk for each 750 people served the following personnel are required.

(1) Para 03, Line 1 and Para 04, Line 1, window clerk, Grade E5. Postal finance teams normally operate branch post offices away from the parent APO, making the clerk in charge of a branch unit the sole authority for postal information provided to supported units. In addition, the clerk in charge is issued postal funds and equipment of considerable value. Therefore, the job requires an individual of experience and maturity which can best be provided by a senior window clerk, Grade E5.

(2) Para 04, Line 02, assistant window clerk, E4. The team (GB) serves 1500 to 3000 personnel which necessitates an additional window clerk.

ANNEX A

APPENDIX VII

REPLACEMENT REGULATING DETACHMENT

SECTION I - GENERAL

1. Tit's. Replacement Regulating Detachment.

2. Organization. The replacement regulating detachment is composed of cellular teams of TOE 12-560. It normally includes a detachment headquarters team, an operations team, a mess team and a variable number of control teams (Figure A-VII-1).

3. Mission. To provide command, control, and administration of individual and unit replacements and rotatees within the assigned geographical area of responsibility within the theater army replacement system which includes mess, encampment and accounting.

4. Capabilities.

a. Replacement regulating detachments are capable of providing command, control and administration (including mess, encampment, and limited supply) according to the following criteria:

(1) Each detachment has the capability of processing 0 - 400 replacements or rotatees per day depending on the number of teams assigned.

(2) Each replacement control team can process a combined total of 100 individual rotatees and replacements per day or a replacement unit of company size.

(3) Each replacement operations team supports up to 800 replacements.

(4) Each replacement mess team can provide mess and mess facilities for 0 - 400 replacements or rotatees per day.

(5) Each replacement headquarters team can control one operations team, two mess teams, and eight control teams.

(6) Processing and travel time for each replacement or rotatee within the theater army replacement system (from POE to unit of assignment) is based on an average of 48 hours.

d. The replacement regulating detachment is equipped to maintain continuous liaison with the Personnel and Administration Center and other elements within its geographical location to insure the continuous flow of personnel.

e. The replacement regulating detachment is dependent upon the unit to which assigned for motor maintenance support.

f. The replacement regulating detachment is not adaptable to a reduced strength organization.

g. These units are not adaptable to a Type B organization.

h. Individuals of this type organization can engage in effective coordinated defense of the unit's area or installation.

5. Assignment.

a. Replacement Regulating Detachment - to Replacement Regulating Company, Personnel Command or Personnel Administration Battalion, FASCOM.

b. Detachment Headquarters Team, Operations Team, Control Team and Mess Team - to Replacement Regulating Detachment.

6. Basis of Allocations.

a. Normally 1 detachment per 15,000 population served.

b. Detachment headquarters team - one per 0 - 800 replacement or rotatees.

c. Operations team - one per 0 - 800 replacements or rotatees.

d. Control team - one per each 100 replacements or rotatees.

e. Mess team - one per 0 - 400 replacements or rotatees.

PERSONNEL JUSTIFICATION

7. Personnel Justification.

a. Five officers and 35 enlisted personnel are the minimum required to adequately provide command, control, and special services support for four rest areas each supporting 750 combat or combat support troops under the control of their unit commanders.

b. The headquarters element is responsible for all supply functions for each Service Team operating a rest area, as well as providing assistance and support to supported units for special services supply. The headquarters element provides command and control to Services Teams and rest areas.

c. Each Services Team operating a rest area receives support for rest area services from functionally oriented teams, such as a medical team for dispensary services, a mess team for meals, and others.

d. Detailed justification by line number on the manning table is as follows:

(1) Para 1 - Detachment Headquarters.

(a) Line 01 - Commanding Officer, AG, 5000, Capt. Commands and controls the special service detachment consisting of a detachment headquarters and four (4) Services Teams, each team

operating a rest area.

(b) Line 02 - First Sergeant, NC, 03B50, E-8.

Principal enlisted supervisor for all unit personnel. Supervises unit-wide functions as pertain to enlisted personnel, and assists in controlling personnel occupying rest areas by coordinating with designated unit supervisors.

(c) Line 03 - Supply Sergeant, NC, 76K40, E-6.

Supervises and performs all supply functions required by the Services Teams operating rest areas and coordinates and assists supported units within the geographic area of support in matters pertaining to special services supply items.

(d) Line 04 - Film Supply and Projectionist Specialist, 03B20, E-4. Procures and schedules all motion picture material used in the Special Service Detachment rest area; operates and trains other personnel to operate projection equipment and maintains quality film showings; repairs film as required and arranges for film distribution. Two projectionists are required; each projectionist will provide services to the rest areas as required.

(e) Line 05 - Electronic Repair Specialist, 26T20, E-4. Provides 1st, 2d, and limited 3rd echelon maintenance support

for electronic equipment organic to the unit, and services equipment belonging to combat and combat support units occupying the rest area for short periods of time.

(f) Line 06 - Wheel Vehicle Mechanic, 63B20, E-4.

Authorized by paragraph 8c(20) (d) (1), AR 310-32.

(g) Line 07 - Clerk Typist, 71B20, E-4. Authorized by paragraph 8c (8), AR 310-32.

(2) Para 02 - Services Teams.

(a) Line 01 - Team Chief, AG, 5000, Lt. Commands and controls a rest area and its internal operations. Responsible for and supervises all support required within the rest area. Is liaison officer between rest area operations and commanders of troop units. A commissioned officer is considered necessary for command and control; ranks of troop unit commanders will range from noncommissioned officers to colonel, 06.

(b) Line 02 - Recreation Supervisor, NC, 03B40, E-7. Principal enlisted assistance to the Team Leader. Assists the team leader in supervising the activities of the team; plans and coordinates all types of special service activities, including arts and crafts, libraries, clubmobiles, motion picture showing

facilities, sports, and other services.

(c) Line 03 - Entertainment Supervisor, 03B40,

E-6. Provides supervision and guidance to units who need advice in staging unit soldier shows and in music appreciation; render technical assistance to determine the types of entertainment best suited for troops in a rest area and which can be accomplished within unit resources; assists in recreational areas as appropriate. Responsible for scheduling, operating and training other special service or supported personnel to operate movie projection equipment. In performing these duties he is assisted by: Line 05 - Entertainment Specialist, E-5.

(d) Line 04 - Physical Activity Supervisor, 03C40,

E-6. Provides guidance and assists supported units in formulating and executing plans for sports activities; issues and accounts for a limited amount of athletic equipment available for issue to troop units occupying the rest area. In performing these duties he is assisted by: Line 11 - Physical Activity Specialist, E-5.

(e) Line 05 - Entertainment Specialist, 03B20,

E-5. Assists in providing supervision and guidance to units staging unit soldier shows and music appreciation activities; assists in

determining the types of entertainment best suited for troops in rest area and which can be accomplished within unit resources; assists in recreational areas as appropriate.

(f) Line 06 - Physical Activity Specialist, 03B20, E-5. Assist in providing guidance, and technical knowledge for supporting units in formulating and executing plans for sports activities; assists in the issue and accounting for limited amount of athletic equipment available for issue to troop units occupying the rest area.

(g) Line 07 - Arts and Crafts Specialist, 03D20, E-5. Provides guidance and assistance to supported unit individuals in making handicraft items in the arts and crafts area; issues expendable items to individuals and accounts for any non-expendable items loaned to individuals.

(h) Line 08 - Recreation Specialist, 03B20, E-4. Assists the Recreation Supervisor (line 04) in coordination of team activities, required administrative matters, to include arts and crafts, libraries, movies, and other services required.

INSTRUCTIONS

1. ORIGINATING ACTIVITY: Enter the name and address of the contractor, subcontractor, grantee, Department of Defense activity or other organization (corporate author) issuing the report.

2a. REPORT SECURITY CLASSIFICATION: Enter the overall security classification of the report. Indicate whether "Restricted Data" is included. Marking is to be in accordance with appropriate security regulations.

2b. GROUP: Automatic downgrading is specified in DoD Directive 5200.10 and Armed Forces Industrial Manual. Enter the group number. Also, when applicable, show that optional markings have been used for Group 3 and Group 4 as authorized.

3. REPORT TITLE: Enter the complete report title in all capital letters. Titles in all cases should be unclassified. If a meaningful title cannot be selected without classification, show title classification in all capitals in parenthesis immediately following the title.

4. DESCRIPTIVE NOTES: If appropriate, enter the type of report, e.g., interim, progress, summary, annual, or final. Give the inclusive dates when a specific reporting period is covered.

5. AUTHOR(S): Enter the name(s) of author(s) as shown on or in the report. Enter last name, first name, middle initial. If military, show rank and branch of service. The name of the principal author is an absolute minimum requirement.

6. REPORT DATE: Enter the date of the report as day, month, year, or month, year. If more than one date appears on the report, use date of publication.

7a. TOTAL NUMBER OF PAGES: The total page count should follow normal pagination procedures, i.e., enter the number of pages containing information.

7b. NUMBER OF REFERENCES: Enter the total number of references cited in the report.

8a. CONTRACT OR GRANT NUMBER: If appropriate, enter the applicable number of the contract or grant under which the report was written.

8b, 8c, & 8d. PROJECT NUMBER: Enter the appropriate military department identification, such as project number, subproject number, system numbers, task number, etc.

9a. ORIGINATOR'S REPORT NUMBER(S): Enter the official report number by which the document will be identified and controlled by the originating activity. This number must be unique to this report.

9b. OTHER REPORT NUMBER(S): If the report has been assigned any other report numbers (either by the originator or by the sponsor), also enter this number(s).

10. AVAILABILITY/LIMITATION NOTICES: Enter any limitations on further dissemination of the report, other than those imposed by security classification, using standard statements such as:

- (1) "Qualified requesters may obtain copies of this report from DDC."
- (2) "Foreign announcement and dissemination of this report by DDC is not authorized."
- (3) "U. S. Government agencies may obtain copies of this report directly from DDC. Other qualified DDC users shall request through _____."
- (4) "U. S. military agencies may obtain copies of this report directly from DDC. Other qualified users shall request through _____."
- (5) "All distribution of this report is controlled. Qualified DDC users shall request through _____."

If the report has been furnished to the Office of Technical Services, Department of Commerce, for sale to the public, indicate this fact and enter the price, if known.

11. SUPPLEMENTARY NOTES: Use for additional explanatory notes.

12. SPONSORING MILITARY ACTIVITY: Enter the name of the departmental project office or laboratory sponsoring (paying for) the research and development. Include address.

13. ABSTRACT: Enter an abstract giving a brief and factual summary of the document indicative of the report, even though it may also appear elsewhere in the body of the technical report. If additional space is required, a continuation sheet shall be attached.

It is highly desirable that the abstract of classified reports be unclassified. Each paragraph of the abstract shall end with an indication of the military security classification of the information in the paragraph, represented as (TS), (S), (C), or (U).

There is no limitation on the length of the abstract. However, the suggested length is from 150 to 225 words.

14. KEY WORDS: Key words are technically meaningful terms or short phrases that characterize a report and may be used as index entries for cataloging the report. Key words must be selected so that no security classification is required. Identifiers, such as equipment model designation, trade name, military project code name, geographic location, may be used as key words but will be followed by an indication of technical content. The assignment of links, rules, and weights is optional.
